Lesson 1

Activity

Complete the activities that follow with the student.

Today we will work with the letters Aa, Bb, Cc, Dd, and Ee. We will also match uppercase and lowercase letters. Then, we will practice rhyming. Last, we will practice reading sight words.

Part 1

Show the student Reading Rods: Letters Aa–Ee one at a time in a random order.

Put the letters into two piles, uppercase letters and lowercase letters.

Match each uppercase letter rod with the correct lowercase letter rod by attaching the partner letters together.

Note: Depending on the student’s skill level, you may use fewer or additional letters for this activity.

As you teach each letter, use the handwriting slate to form each letter with chalk. Then, have the student complete the “wet-dry-try” activity to practice forming the letter him/herself.

Part 2

Have the student complete the next activity in his/her Handwriting without Tears program. Model the target letter/number with the slate. Then have the student independently complete the student workbook activity.
