Lesson 1

Objectives

The student will be able to:

- review letters Aa–Zz.
- match lowercase and uppercase letters.
- practice handwriting.
- identify words with short /ă/.
- identify the sounds /b/, /d/, /p/, and /t/ in words.
- read sight words.

Materials

- Reading Rods: Letters Aa–Zz
- crayons, markers, pencils
- handwriting slate
- chalk, little sponges, paper towels
- Handwriting without Tears student and teacher books
- paper
- Letter Tubs: short a, b, d, p, t
- five index cards (or blank paper)
- AlphaTales (B, D, P, T)

Background Information

This lesson focuses on three aspects of early literacy: Alphabetics, Phonics/Phonemic Awareness, and Sight Words.

Beginning Reading for SylvanSync™
Grade K
Lesson 1

Activity

Complete the activities that follow with the student.

Today we will review the letters Aa through Zz. We will then work on handwriting. We will also listen for sounds made by letters in words. Last, we will practice reading sight words.

Part 1

Show the student Reading Rods: Letters Aa–Zz. Point to some of the letters in random order.

What is this letter? (Be sure student includes “uppercase” or “lowercase” when stating the letter name.)

Have student put the letters into two piles, uppercase letters and lowercase letters.

Sort these letters into uppercase and lowercase letters.

Have the student match up the uppercase and lowercase letter pairs.

Now, match each uppercase letter rod with the correct lowercase letter rod by attaching the partner letters together.

Note: Depending on the student’s skill level, you may use fewer letters for this activity.

Beginning Reading for SylvanSync™
Grade K
Lesson 1

Part 2

Have the student complete the next activity in his/her Handwriting without Tears program. Model the target letter/number with the slate. Then have the student independently complete the student workbook activity.

Part 3

What sound do you hear at the beginning of the word apple? (/ă/)

What sound do you hear in the middle of the word cat? (short /ă/)

The /ă/ sound is made by the letter Aa. Write a lowercase and an uppercase letter Aa on your paper.

Have the student write uppercase and lowercase Aa on a sheet of paper.

The letter Aa is a vowel. Only four other letters are vowels: e, i, o, and u. The other letters are called consonants. You combine different sounds together to form words.

Listen to these words. If the word has the /ă/ sound, stand up. If it does not have the /ă/ sound, sit down. I will model two examples for you.

Part 4

Write the lowercase letters b, d, p, and t on a sheet of paper and show it to the student.

Today, you'll practice with the sounds made by the letters b, d, p, and t. What sounds are made by these letters? (/b/, /d/, /p/, /t/)

If the student does not know all of the sounds made by these letters, show the student how to make each sound.

On the sheet of paper write the following words as you point out the sound each word starts with. Underline the first letter in each word.

The word bag starts with /b/. bag

The word dog starts with /d/. dog

The word pal starts with /p/. pal

The word test starts with /t/. test

Listen to these words. Tell me the sound you hear at the beginning of each one after you hear it.

Have the student read each word as you show them to him or her. As the student reads the words, sort the cards into piles: "Words I Already Know" and "Words I Need to Practice." Then, have the student practice independently.

When I show you a card, read the word.

Note: Depending on the student's skill level, you may wish to add additional sight words to the above list.

Part 6

Read one of the AlphaTales books (B, D, P, or T). Have the student identify words/illustrations that begin with the target letter. Also have the student identify any short /ă/ words.

As you read, if you come across one of the sight words from today's lesson (or, one, had, my, words), point it out to the student.
